

36 5 Induction Zones Cooktop Professional Series

P365IAE

Bertazzoni rangetops and cooktops are superb cooking appliances designed, engineered and made in Italy. All Bertazzoni appliances integrate seamlessly into style-harmonized suites for a true, high-performing kitchen.

Bertazzoni touch-control induction cooktops represent the fastest and most energy-efficient way to cook. With total output of up to 11 100 Watts and booster function, full power is available instantly and is delivered directly to the cookware, eliminating inconvenient heat-up time and wasted energy. The induction cooktops come with 4 or 5 individually-controlled extra-large heating zones on a beveled black glass main top. The lateral zones can be bridged to form a larger heating area. Cleaning is super-easy, just spray with glass cleaner and wipe the glass surface clean.

All Bertazzoni appliances are covered by a 2-year warranty. Products and packaging are 99% recyclable. 

Specifications

Features

Worktop

Size	36 in
