

24" Refrigerator bottom mount integrated panel ready Professional Series

REF24PR

The Bertazzoni 24 inches cm built-in bottom mount refrigerator offers 8.8 cu ft capacity split between the fridge and three freezer draws. There are three shelves in the fridge with a bottle compartment. The panel ready door is reversible for left or right swing installation with sliding hinge panel mounting system. The total no frost system offers an automated defrosting of evaporator that ensures food stay always fresh. It's equipped with LED lighting, a electronic touch interface with user-friendly controls for temperature.
